“Participation must also be external, so that internal participation can be expressed and reinforced by actions, gestures, and bodily attitudes, and by the acclamations, responses, and singing. The quality of our participation in such sung praise comes less from our vocal ability than from the desire of our hearts to sing together of our love for God. Participation in the sacred liturgy both strengthens and expresses the faith that is in us.” .” (Sing to the Lord: Music in Divine Worship - USCCB, 2007)
